

Sun Pharma and AstraZeneca enter into distribution agreement for ticagrelor in India

Mumbai & Bangalore, India: June 2, 2015 - Sun Pharmaceutical Industries Ltd. (Reuters: SUN.BO, Bloomberg: SUNP IN, NSE: SUNPHARMA, BSE: 524715) and AstraZeneca Pharma India Limited (AZPIL) (BSE : 506820, NSE : ASTRAZEN, AZPIL) today announced that AZPIL and Sun Pharma have entered into a distribution services agreement in India for AstraZeneca's brand "Axcer®", a new brand of ticagrelor, a drug used for the treatment of acute coronary syndrome (ACS) . AZPIL already has a brand under the trademark "Brilinta®", for ticagrelor molecule, launched and marketed by AZPIL in India since 2012.

Abhay Gandhi, CEO - India Business, Sun Pharma said, *"We are happy to collaborate with AstraZeneca to provide customers access to this latest generation treatment option for ACS. Such collaborations are also a part of our stated policy of becoming the partner of choice for promotion and distribution of innovative pharmaceutical products in the country."*

Sanjay Murdeshwar, Managing Director, AstraZeneca Pharma India Limited said, *"We are pleased to collaborate with Sun Pharmaceuticals to bring this innovative treatment solution to a larger number of ACS patients in India. Ticagrelor works by preventing the formation of new blood clots and maintains blood flow in the body, helping reduce a patient's risk of another heart attack or cardiovascular-related death."*

Sun Pharma will be promoting and distributing "Axcer®" brand in India. This collaboration enables AstraZeneca to expand usage of this molecule through wider reach to physicians and thereby benefiting a greater number of ACS patients. It strengthens Sun Pharma's cardiology portfolio with the addition of a new patented therapy.

NOTES TO EDITORS

About Ticagrelor

Ticagrelor is a direct-acting, selective and reversibly binding P2Y₁₂ receptor antagonist in a chemical class called cyclo-pentyl-triazolo-pyrimidines (CPTPs). Ticagrelor works by inhibiting platelet activation. Ticagrelor (90mg) is indicated to reduce the rate of thrombotic CV events in patients with ACS (unstable angina [UA], non-ST-elevation myocardial infarction [NSTEMI], or ST-elevation myocardial infarction [STEMI]). Ticagrelor has been shown to reduce the rate of a combined end point of CV death, MI, or stroke compared to clopidogrel. The difference between treatments was driven by CV death and MI with no difference in stroke. In patients treated with percutaneous coronary intervention, it also reduces the rate of stent thrombosis.

About Sun Pharmaceutical Industries Ltd. (CIN - L24230GJ1993PLC019050):

Sun Pharma is the world's fifth largest specialty generic pharmaceutical company and India's top pharmaceutical company. A vertically integrated business, economies of scale and an extremely skilled team enable us to deliver quality products in a timely manner at affordable prices. It provides high-quality, affordable medicines trusted by customers and patients in over 150 countries across the world.
